CHECKLIST

Veranda roofing material checklist

- [ ] Measure the span between your beams
- [ ] Decide how much light you want underneath
- [ ] Check your frame can support the weight
- [ ] Consider how loud rain will sound
- [ ] Work out your budget for material and fixings
- [ ] Plan for a pitch of at least ten degrees
- [ ] Leave expansion gaps for polycarbonate and PVC
- [ ] Inspect posts and beams for rot if retrofitting
